REMARKS

No new matter is added by this amendment. The present application is a continuation application of U.S. Patent Application Serial No. 10/091,858 filed March 5, 2002. In a preliminary amendment claims 1-56 were cancelled and new claims 57-69 were added. By this amendment claims 61 and 65 have been amended. The claims remaining in consideration are claims 57-69. Reconsideration is respectfully requested.

Claims 57-69 were rejected under the judicially created doctrine of obvious type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 6,717,517 or the alternative over claims 1 and 4-12 of U.S. Patent No. 6,373,389. A Terminal Disclaimer with respect to these two patents is enclosed. Therefore Applicants respectfully assert that the obvious type double patenting rejection be withdrawn. Claims 61-65 were objected to under 37 C.F.R. 1.75(a). Specifically, claim 61 and 65 lacked antecedent basis for two terms. Claim 61 and 65 have been amended to correct the deficiencies noted by the Examiner. Therefore Applicants respectfully request that the objection to claim 61-65 be withdrawn.

Accordingly, it is respectfully submitted that the Application, as amended, is now presented in condition for allowance, which allowance is respectfully solicited. A check is enclosed in the amount of \$130.00 to cover the Terminal Disclaimer fee. It is believed that no additional fees are due, however, if any become required, the Commissioner is hereby authorized to charge any fees or credit any overpayments to Deposit Account 08-2789 in the name of Howard & Howard Attorneys, P.C.

Respectfully submitted
